Strength of Judges in Jharkhand High Court

†3857. SHRI AJAY MAROO: Will the Minister of LAW AND JUSTICE be pleased to state:

(a) whether Government consider the present sanctioned strength of judges in Jharkhand High Court as sufficient;

(b) whether there is any proposal to increase the present sanctioned strength of judges; and

(c) the criterion for fixing the number of judges?

THE MINISTER OF STATE IN THE MINISTRY OF LAW AND JUSTICE (SHRI K. VENKATAPATHY): (a) to (c) The sanctioned strength of the Jharkhand High Court is 12 Judges/Additional Judges against which 11 Judges are currently functioning.

In terms of the directions contained in the judgement of the Supreme Court dated October 6, 1993 in the case of Supreme Court Advocates on Record and anr. Vs. Union of India, and discussions in the Chief Ministers' Conference held in 1993, judge strength of the High Courts is reviewed every three years. The last review was undertaken in the year 2003, including the review of judge strength of Jharkhand High Court. The next review is due in 2006 for which the High Courts, including the Jharkhand High Court, have been requested to furnish data.

As per the guidelines, the required strength of permanent Judges in a High Court is worked out by dividing the average institution of main cases during the last five year by the national average or the average rate of disposal of main cases per Judge per year in that High Court, whichever is higher.

Similarly, the reqired strength of Additional judges in a High Court is worked out by dividing the number of main cases pending over two years
